

Redthorn MRP Cloud Based Software

**IS YOUR MANUFACTURING & ENGINEERING BUSINESS READY FOR A CLOUD BASED MRP SOLUTION?
DO YOU HAVE STAFF THAT NEED TO WORK FROM HOME AND WOULD BENEFIT FROM A CLOUD BASED SYSTEM?
CONSIDER OUR COST-EFFECTIVE MRP CLOUD SOLUTION.**

As a manufacturer or engineering company, you operate every day with your staff, suppliers, customers and equipment, meaning you are increasingly dependent on the reliability, availability and integration of your MRP system.

This modern platform provides customers with the latest Redthorn MRP software and computing power, all accessible through their internet browser, paying only for what you need on subscription. This model will typically enable you to gain cost savings, improve productivity, compliance and security, allowing your MRP system to benefit from the latest IT developments as they happen.

Here are just some of the reasons for adopting the Redthorn MRP system via the Cloud:

- Supports Multiple Sites
- Supports Multiple Businesses
- Flexible, Scalable
- Allows for Remote Working
- Supports Collaborative Working
- Improved Security
- Improved Reliability
- Disaster Recovery Capabilities
- Tender Response Assistance
- One Support Number to Call
- Support available 24x7x365
- Monitoring and Patching Service
- Single Monthly Fee
- Predictable Budgeting
- Hosted in the UK
- Managed to ISO27001:2013 Standards

*Most importantly, moving to the Redthorn MRP Cloud solution couldn't be simpler!
Embrace the ever-changing future with confidence.*
