

*Let's hear what our Redthorn clients think about us...*

***Produmax***

produmax.co.uk

**Produmax**

produmax.co.uk

**What they do:**

Produmax Limited is a specialist manufacturing company with extensive expertise in high-precision engineering. Specialising in developing innovative manufacturing techniques for a wide range of industries, mainly in aerospace components for the commercial and military markets. Produmax also supplies the medical, oil and gas, and telecoms industries.

Their expertise in high precision engineering and superior knowledge of machining, including hardened steel, titanium and aircraft grade aluminium alloys, allows them to manufacture difficult to make components and assemblies and advise customers on solutions to problems as they arise. Components and assemblies can range from small batch work to large multiples. Produmax is based in Baildon, West Yorkshire and was formed in 1966.

**Products they manufacture:**

Specialists in the design and supply of bespoke enclosure and bracketry in steel, stainless steel and aluminium, goods are supplied 'ready to use' from a purpose built factory in West Yorkshire.

**How long they have been using Redthorn?**

Over 20 years

**Why they have stayed with us:**

Redthorn offer flexibility, customised development of products, are good at listening and problem solving and are a cost effective option, we have grown with the company.

***“We’ve always been happy with the service from Redthorn. Having the ability to talk directly to the product developers means our ideas and requirements are understood and actioned quickly. Redthorn are small enough to offer a personal service, but large enough to cope with a fast turnaround. They’ve got it just right in our view.”***
